Trusts Versus Rings.

"What," queried the fair maid, "is the difference between a trust and a ring?"
"I'm afraid I cannot explain the difference in so many words," replied the young man in the case, "but if you'll put your trust in me I'll blow myself for the ring tomorrow."
And she put her trust in him.—Chicago News.

PRESENTATION DAY EXERCISES

Prominent State Educators are in Attendance.

Today, Friday, is Presentation Day at Stetson University. The exercises will begin this morning.

In the first place, at 10 a. m., sharp, exercises will begin in the auditorium. At this time Dr. Blackman, President of Rollins College, and Dr. Shedd, President of the Florida State College at Lake City, will deliver educational addresses. There will be other enjoyable features also.

In the afternoon at 3 o'clock there will be a baseball game on the athletic field between Stetson and the Kentucky Military Institute.

The evening will be given over to a grand reception in Chaudoin Hall.

All through the day the buildings of the University, excepting the dormitories, will be open to public inspection.

Not only are all these events open to the general public, but it is very earnestly desired that they be well attended by both the University students and town people. Some seem to have the idea that such events as the reception are only for the students, but this is not the case.

Everybody is invited.

Just a little Kodol after meals will relieve that fullness, belching, gas on stomach, and all other symptoms of indigestion. Kodol digests what you eat, and enables the stomach and digestive organs to perform their functions naturally. G. W. Fisher.

GAS IN THE STOMACH.

Belching and that sense of fullness so often experienced after eating is caused by the formation of gas. The stomach fails to perform its function and the food ferments. Chamberlain's Stomach and Liver Tablets will correct the disorder. They aid digestion and strengthen and invigorate the stomach and bowels. For sale by all druggists.

Tough.

"You should have heard Bangs roasting Goodley last night. He used some pretty hard words."
"Yes, but they didn't seem so hard to Bangs last night as they did this morning."

"How do you mean?"
"He had to eat them this morning."—Philadelphia Press.

Discouraging.

The resignation of Dr. MacArthur was accepted, with suitable resolutions of respect and sorrow.

Senator C. A. Carson, of Kismimmee, appeared before the board to urge the adoption of resolutions presented by the Baptist State Convention, with respect to election of trustees. A resolution was adopted proposing changes in the charter providing for the election of trustees to hold office six years—four to be elected each year—instead of life tenure as at present.

In the election of officers, all the old officers were re-elected with the exception of Mr. Sparkman, who refused re-election. Mr. Search was elected as vice-president. The administration committee was re-elected.

The meeting adjourned to March 15, when it will reconvene.

RAISING TIES.

Great Consumption of Wood Drives Railways Into Forestry.

"Within the past two years," said a prominent Pennsylvania railroad official, "we have planted about 800,000 trees, mostly hemlocks, averaging about 400 to the acre, in rows ten feet apart. The trees thus planted are seedlings two or three years old and have cost an average of 8 cents a tree, put in the ground. We have planted about 400,000 more this fall and expect to plant from 300,000 to 500,000 seedlings every year and keep on doing it until we have covered all the available territory belonging to the road.

"It is not the intention of the company to raise all of the ties necessary for its use in future repairs and construction, but we hope by our own example to stimulate an interest among land-owners along the line, so that they will plant trees in the fields that are not good for anything else. Locust, chestnut, white oak and yellow pine, which make the best ties, will grow almost anywhere in Pennsylvania, and there are vast areas of unoccupied lands that might be made fairly profitable in this way. Some of it was formerly covered with timber, and most of it is idle.

"Although it takes a long time for a tree to grow, I do not know of any better investment for such otherwise useless property. It costs only about 8 cents to plant a tree, and it requires little attention. One man can look after 2,000 or 4,000 acres and have plenty of time left to take care of other business. Even if he may not live to enjoy the results of his labor, any one who plants a thousand acres of trees will leave something as good as life insurance to his children. The demand for ties will never cease. Ten years from now we shall want as many as 6,000,000 ties every year on the Penn-

LETTERS FROM THE PEOPLE

From Ormond to Tampa.

ORMOND, FLA., Feb. 11, 1906.

Editor The DeLand News:

We were pleased to see your "Cross Country Road" article in issue of 9th. Volusia county can afford to take special interest in the good roads question, possessing now the greatest and most famous speedway for automobiles in the world and being the natural center of the good roads system of the State by the inevitable opening of the East Coast Highway from Jacksonville to Miami and a highway across the State from Ormond and Daytona via DeLand and Orlando to Tampa. Now is the time to clinch the advantage that Volusia county seems to have.

Yours very truly,
ANDERSON & PRICE.

Presentation Day Speakers.

Editor The DeLand News:

As there has been considerable discussion and difference of opinion, in the past few days, as to who the speakers have been on different Presentation Days, it may be well to refresh our memories with the correct list.

The first Presentation Day was Feb. 14, 1893, when the ceremonies dedicating Elizabeth Hall and Chaudoin Hall occurred, when there were addresses by Col. Charles H. Barnes of Philadelphia, and Dr. John A. Broadus.

In 1894, there were addresses by Dr. J. F. Forbes, President of Mercer University, and Hon. W. N. Sheats.

In 1895, Dr. J. M. Stifler.

In 1896, Dr. Cyrus W. Northup.

In 1897, Dr. B. L. Whitman.

In 1898, Dr. W. R. Harper and Dr. J. L. M. Curry.

In 1899, Dr. A. W. Small.

In 1900, Dr. B. L. Whitman.

In 1901, Dr. W. H. P. Founcee, and at this time was made the announcement of the establishment of the law school and of generous donations for a law library.

In 1902, Dr. A. H. Strong delivered the address.

In 1903, Dr. E. Y. Mullins was the speaker.

In 1904, Dr. R. S. MacArthur delivered the address.

Besides these addresses President Forbes, while he was in DeLand, gave each year on Presentation Day, a statement of the financial condition of the institution, what had been accomplished in the past year, and what the outlook was for the future; President Hulley did the same last year, and there have been on nearly every occasion brief addresses by other trustees.

Needed By Every Floridian

A Complete Revision of the Statute Laws of Florida, including Act of 1903, with Copious Annotations from Supreme Court Decisions.

This magnificent publication, containing the Statute Laws of Florida, which, until now, has only been sold to the lawyers of the State, is now offered to the general public at a price that puts it within the reach of every Floridian.

The book represents years of painstaking labor on the part of the compiler, Col. C. F. Akers, and is pronounced by leading lawyers of Florida an invaluable reference book.

Ignorance of the Law is held by the courts as no excuse for its violation, and, therefore, it behooves every citizen of the State to inform himself as to what the law is. He can obtain this information from this publication.

The crowning feature of the book is its incomparable indices. The Criminal and Civil Law being kept separate throughout the book, each has its own separate index, full and complete, and the two indices together make twice as many pages as the whole index of the Statute Laws of 1903, and makes the publication without equal as a book of easy reference. This book contains over five hundred large pages beautifully printed on fine paper and bound in a handsome and substantial binding in full law shape. The book is offered, while the edition lasts, at \$1.00 per volume, carriage paid to any part of Florida.
